

FOX LINTON

FABRIC

FAIRFORD

Colour Shown: Bird Chorus (9 colours available) FL010064001

Fairford is a luxurious 100% Merino wool drape fabric woven in a small scale chevron weave. The quality comes in 9 colourways ranging from very soft pastel greys, pinks and blues through to mid tones and darker charcoal. The beauty of the handle is due to the nature of merino wool fibres which are extremely fine making them feel soft to the touch with great drapability. Wool itself has many benefits being 100% natural and grown all year round making it completely renewable. It is 100% biodegradable and will naturally decompose in soil, slowly releasing nutrients back into the earth making it very environmentally friendly. This smart, yet casual wool will enhance either a traditional or contemporary setting.
